

Global English Campus

English for Academic Success

Learn English and Academic Topics Together, and Strengthen All Your Skills

Fully Automated Learning

GEC has advanced algorithms that track your knowledge and your skills.

Students start with placement tests, and then the automated learning takes over, and teaches what you need to know.

All Skills Training

GEC covers the usual skills, like math, science, listening, speaking, reading and writing.

GEC also helps students with study skills, scheduling and study regularity.

GEC tracks social skills and personal academic motivation. Students get 'all skills training' when they study on GEC's platform.

Parents and Partners Can Choose A Delivery Model

Standard Delivery Models

- ★ *Online Self Study*
- ★ *Live Teachers Online*
- ★ *Live Teacher online / Local in-class Teacher*
- ★ *Local in-class Teacher with print or eBooks*
